

**OUTLINES OF TESTS,  
SYLLABI AND COURSES OF READING**

**FOR**

**BACHELOR OF COMPUTER APPLICATIONS (B.C.A)**

**(SEMESTER SYSTEM)**

**PART-II**

**(Semester 3<sup>rd</sup> and 4<sup>th</sup>)**

**FOR  
2017-18 SESSION**

**PUNJABI UNIVERSITY,  
PATIALA – 147 002**

**OUTLINE OF PAPERS AND TESTS**  
for  
**B.C.A. Second Year(3<sup>rd</sup> Semester)**  
**2015-16, 2016-17, 2017-18 SESSIONS**

Code	Title of Paper	Hours per Week	University Examination	Internal Assessment	Max. Marks	Exam. Duration Hours
BCA-211	English Communication Skills – I	4	75	25*	100	3
BCA-212	Discrete Mathematics	4	75	25	100	3
BCA-213	Computer System Organizations and Architecture	4	75	25	100	3
BCA-214	Object Oriented Programming using C++	4	75	25	100	3
BCA-215	Fundamentals of Database Management System	4	75	25	100	3
BCA-216	Software Lab – IV (based on paper BCA-214: Object Oriented Programming using C++)	4	35	15	50	3
BCA-217	Software Lab – V (MS Access Lab based on BCA-215 Fundamentals of Database Management System)	4	35	15	50	3
BCA-218	Punjabi (Compulsory) or Punjabi Compulsory (Mudla Gyan) **	4	75	25	100	3
		<b>Total</b>	<b>520</b>	<b>180</b>	<b>700</b>	

**Note:**

The break up of marks for the practical will be as under:

- |   |          |
|---|----------|
| i. Lab Record (Internal Assessment)                         | 15 Marks |
| ii. Viva Voce (External Evaluation)                         | 15 Marks |
| iii. Program Development and Execution(External Evaluation) | 20 Marks |

The break up of marks for the internal assessment for theory papers except BCA-211 will be as under:

- |  |          |
|--|----------|
| i. One or two tests out of which minimum one best will be considered for assessment. | 15 Marks |
| ii. Attendance   | 5 Marks  |
| iii. Class participation/behaviour/assignment  | 5 Marks  |

\*The break up of marks for the internal assessment for BCA-211: English Communication Skills – I will be as under:

- |  |          |
|--|----------|
| i. Formal assessment through Interview/Self Introduction/Recitation etc.                               | 10 Marks |
| ii. Conversation Skills (particularly listening and speaking to be evaluated through oral examination) | 5 Marks  |
| iii. Attendance  | 5 Marks  |
| iv. Class participation/behaviour/assignment   | 5 Marks  |

## **BCA-211: English Communication Skills – I**

**Max Marks: 75**

**Maximum Time: 3 Hrs.**

**Min Pass Marks: 35%**

**Lectures to be delivered: 45-55 Hrs**

**English Communication Skills** has been designed to develop the student's communicative competence in English. Therefore, content selection is determined by the student's present and future academic, social and professional needs.

### **Texts Prescribed for Grammar and Vocabulary:**

#### **Prose Parable – (1-10 chapters)**

W. Standard Allen: Living English Structure (Orient Longman)

The Written Word by Vandana R. Singh

### **SECTION A**

- Q.1** (a) One essay type question with an internal alternative on the theme, incident & character from Prose Parable. The answer should not exceed 250 words. 10 marks  
(b) 5 short answer type questions to be attempted out of the given eight from Prose Parables (40-50 words)  $5 \times 2 = 10$  marks

### **SECTION B – COMPREHENSION**

- Q.2** One unseen passage with five questions from the passage for five marks and 05 marks for vocabulary such as word formation and inferring meaning 10 marks

### **SECTION C – GRAMMAR**

- Q.3** (a) Transcoding : Prose to dialogue. (One passage will be given) 5 marks  
(b) Error correction in sentences. (Attempt 5 out of 8 sentences) 5 marks  
(c) Drafting questions based on given inputs 5 marks

### **SECTION D – COMPOSITION**

- Q.4** (a) Writing one out of two official letters from the given topics
1. Making inquiries
  2. Suggesting changes
  3. Registering complaints
  4. Asking and giving information 10 marks
- (b) Development of a story from given hints 10 marks  
(c) Application for job including CV/Resume 10 marks

## BCA-212: Discrete Mathematics

**Max Marks: 75**

**Min Pass Marks: 35%**

**Maximum Time: 3 Hrs.**

**Lectures to be delivered: 45-55 Hrs**

### (A) INSTRUCTION FOR THE PAPER SETTER

The question paper will consist of *three sections A, B and C*. Section A and B will have four questions from the respective section of the syllabus carrying 15 marks for each question. Section C will consist of 5-10 short answer type questions carrying a total of 15 marks, which will cover the entire syllabus uniformly. . Candidates are required to *attempt five questions in all by selecting at least two questions each from the section A and B. Section C is compulsory.*

### (B) INSTRUCTIONS FOR THE CANDIDATES

Candidates are required to attempt five questions in all by selecting at least two questions each from the section A and B. Section C is compulsory.

#### SECTION-A

**Set Theory:** Sets, Type of sets, Set operations, Principle of Inclusion-Exclusion, Cartesian product of sets, Partitions.

**Logic :** Propositions, Implications, Precedence of logical operators, Translating English sentences into logical expressions, Propositional equivalence

**Principle of Mathematical induction.**

**Relations:** Relations and diagraph, n-ary relations and their applications, properties of relations, representing relations, closure of relation, equivalence relation, operation on relations, partial ordering.

#### SECTION- B

**Functions:** Functions, One-to-one Functions, Onto Functions, Inverse and Composition of Functions, Floor Function, Ceiling Function.

**Basic Concepts (Only Definition):** Big-O Notation, Big-Omega and Big-Theta Notation.

**Graphs:** Introduction to Graph, Graph terminology, Representing graphs and Graph Isomorphism, Connectivity, Euler Paths and Circuits, Hamiltonian paths and circuits, Shortest Path Problems, Planar Graphs.

**Trees :** Trees, labelled trees, Tree Traversal, Undirected trees, Spanning Trees, Minimum spanning trees.

## BCA-213: Computer System Organization and Architecture

Max Marks: 75

Min Pass Marks: 35%

Maximum Time: 3 Hrs.

Lectures to be delivered: 45-55 Hrs

### (A) INSTRUCTION FOR THE PAPER SETTER

The question paper will consist of *three sections A, B and C*. Section A and B will have four questions from the respective section of the syllabus carrying 15 marks for each question. Section C will consist of 5-10 short answer type questions carrying a total of 15 marks, which will cover the entire syllabus uniformly. Candidates are required to *attempt five questions in all by selecting at least two questions each from the section A and B. Section C is compulsory.*

### (B) INSTRUCTIONS FOR THE CANDIDATES

Candidates are required to attempt five questions in all by selecting at least two questions each from the section A and B. Section C is compulsory.

### SECTION-A

Computer System Organisation: CPU Organisation, Instruction Execution (instruction cycle, types of instructions), RISC v/s CISC, Design Principles for Modern Computers, Instruction level parallelism. Processor level parallelism.

Primary memory: Memory addresses, Byte Ordering, Error-correcting codes, Cache memory.

Secondary memory: Memory hierarchy, SCSI disk, RAID.

Instruction Set Architecture: Instruction formats, Expanding opcodes, types of addressing modes, data transfer and manipulation instructions, Program control( status-bit conditions, conditional branch instructions, program interrupt, types of interrupt).

### SECTION-B

Register Transfer Language: Register Transfer, Bus and memory transfer, Arithmetic micro-operations, Logic micro-operations, Shift micro-operations, Arithmetic logic shift unit Micro-programmed control, control word, control memory ( concepts only)

Input-output Organisation- I/O interfaces (I/O bus and interface modules, I/O versus memory bus, isolated versus memory-mapped I/O).

Asynchronous Data transfer (strobe control, handshaking), modes of transfer (programmed I/O, interrupt-initiated I/O, software considerations), Direct memory access.

## BCA-214: Object Oriented Programming using C++

Max Marks: 75

Min Pass Marks: 35%

Maximum Time: 3 Hrs.

Lectures to be delivered: 45-55 Hrs

### (A) INSTRUCTION FOR THE PAPER SETTER

The question paper will consist of *three sections A, B and C*. Section A and B will have four questions from the respective section of the syllabus carrying 15 marks for each question. Section C will consist of 5-10 short answer type questions carrying a total of 15 marks, which will cover the entire syllabus uniformly. Candidates are required to *attempt five questions in all by selecting at least two questions each from the section A and B. Section C is compulsory.*

### (B) INSTRUCTIONS FOR THE CANDIDATES

Candidates are required to attempt five questions in all by selecting at least two questions each from the section A and B. Section C is compulsory.

#### Section-A

**Evolution of OOP :** Procedure Oriented Programming, OOP Paradigm, Advantages and disadvantages of OOP over its predecessor paradigms.

**Characteristics of Object Oriented Programming :** Abstraction, Encapsulation, Data hiding, Inheritance, Polymorphism, code Extensibility and Reusability, User defined Data Types.

**Introduction to C++ :** Identifier and keywords, Constants, Operators

**Pointers:** Pointer Operations, Pointer Arithmetic, Pointers and Arrays, Multiple indirections, Pointer to functions.

**Function :** Prototyping, Definition and Call, Scope Rules, Parameter Passing Value, by address and by reference, Functions returning references, Const Functions, recursion, function overloading, Default Arguments, Const Arguments.

**Classes, Objects and Members :** Class Declaration and Class Definition, Defining member functions, Defining Object, making functions inline, Members access control, Nested Classes, This Pointer.

#### Section-B

Object as function arguments, array of objects, functions returning objects, const members and member functions. Static data members and static member functions, Friend functions and Friend classes.

**Constructors :** Properties, types of constructors (Default, parameterized and copy), Dynamic constructors, Multiple constructors in classes.

**Destructors :** Properties, Virtual destructors, Destroying objects, Rules for constructors and destructors, Array of objects.

Dynamic memory allocation using new and delete operators.

**Inheritance :** Defining derived classes, inheriting private members, single inheritance, types of derivation, function, function redefining, constructors in derived class. **Types of**

**inheritance:** Single, Multiple, Multi level and Hybrid,

**Types of base classes:** Direct, Indirect, Virtual, Abstract, Code Reusability.

**Polymorphism :** Methods of achieving polymorphic behavior. Polymorphism with pointers, virtual functions, late binding, pure virtual functions and abstract base class. Difference between function overloading, redefining and overriding.

**Operator overloading:** Overloading binary operator, overloading unary operators, rules for operator overloading, operator overloading using friend function. Function overloading, early binding.

**Open/ Close Files commands. Read/write operations on files.**

## BCA-215: Fundamentals of Database Management System

Max Marks: 75

Min Pass Marks: 35%

Maximum Time: 3 Hrs.

Lectures to be delivered: 45-55 Hrs

### (A) INSTRUCTION FOR THE PAPER SETTER

The question paper will consist of *three sections A, B and C*. Section A and B will have four questions from the respective section of the syllabus carrying 15 marks for each question. Section C will consist of 5-10 short answer type questions carrying a total of 15 marks, which will cover the entire syllabus uniformly. Candidates are required to *attempt five questions in all by selecting at least two questions each from the section A and B. Section C is compulsory.*

### (B) INSTRUCTIONS FOR THE CANDIDATES

Candidates are required to attempt five questions in all by selecting at least two questions each from the section A and B. Section C is compulsory.

## SECTION A

**Introduction:** Database Approach, Characteristics of a Database Approach, Database System Environment.

**Roles in Database Environment:** Database Administrators, Database Designers, End Users, Application Developers.

**Database Management Systems:** Definition, Characteristics, Advantages of Using DBMS Approach, Classification of DBMSs.

**Architecture:** Data Models, Categories of Data Models- Conceptual Data Models, Physical data Models, Representational Data Models, such as, Object Based Models, Record Based Models, Database Schema and Instance, Three Schema Architecture, Data Independence – Physical and Logical data Independence.

**Database Conceptual Modelling by E-R model:** Concepts, Entities and Entity Sets, Attributes, Mapping Constraints, E-R Diagram, Weak Entity Sets, Strong Entity Sets.

**Enhanced E-R Modelling:** Aggregation, Generalization, Converting ER Diagrams to Tables.

**Relational Data Model:** Concepts and Terminology, Characteristics of Relations.

**Constraints: Integrity Constraints-** Entity and Referential Integrity constraints, Keys-Super Keys, Candidate Keys, Primary Keys, Secondary Keys and Foreign Keys.

## SECTION B

**Relational Algebra:** Basic Operations, Additional Operations, Example Queries. **Database**

**Design:** Informal Design Guidelines for Relation Schemas, Problems of Bad Database Design,

**Normalization:** Functional Dependency, Full Functional Dependency, Partial Dependency, Transitive Dependency, Normal Forms– 1NF, 2NF, 3NF, Boyce-Codd NF, **MS-ACCESS:** introduction to MS-ACCESS, working with databases and tables, queries in Access, Applying integrity constraints, Introduction to forms, sorting and filtering, controls, Reports and Macro: creating reports, using Macros.

### Text Book:

## **BCA-216: Software Lab – IV**

**(Based on paper BCA-214: Object Oriented Programming using C++)**

**Max Marks: 50**

**Maximum Time: 3 Hrs.**

**Min Pass Marks: 35%**

**Practical Sessions to be conducted: 40-50 Hrs**

This laboratory course will comprise as exercises to supplement what is learnt under paper BCA-214: Object Oriented Programming using C++. Students are required to develop the following programs in C++ language with internal documentation:

1. Create a class to store student information with data members as roll no, name, marks in 3 subjects total and average using constructor where ever required.
2. Write a program using Abstract Data Type (ADT) to find largest and smallest elements in an array.
3. Write a program in C++ to implement Bubble sort and Selection Sort
4. Write a program in C++ to implement Quick Sort.
5. Write a program using ADT to perform linear search.
6. Write a program using ADT to perform binary search.
7. Write a program using ADT to add and subtract two matrices.
8. Write a program using ADT to Multiply and Transpose two matrices.
9. Write a program to read 2 integers and perform simple arithmetic operations using pointer technique. (Use new and delete operators)
10. Write a program to read an array and display an array using dynamic memory allocation.
11. Write C++ programs to implement Stack ADT using array.
12. Write C++ programs to implement Queue ADT using array.
13. Write a program to create memory space for a class object using new operator and to destroy it using delete operator.
14. Develop an Object Oriented program in C++ to read emp name, emp code, designation, experience and age. Construct the database with suitable member functions for initializing and destroying the data using constructor and destructor and dynamic memory allocation operators new and delete.
15. Write a program in C++ to prepare mark sheet of an University exam by reading stuname, rollno, subname, subcode, internal marks, external marks. Design a base class consisting data members such as student name, roll no, sub name. Derived class consists data members such as sub code, internal marks, external marks, construct oops data to search for a record i.e. be printed.

The break up of marks for the practical will be as under

i.	Lab Record (Internal Assessment)	15 Marks
ii.	Viva Voce (External Evaluation)	15 Marks
iii.	Program Development and Execution(External Evaluation)	20 Marks

## **BCA-217: Software Lab – V**

**Max Marks: 50**

**Min Pass Marks: 35%**

**Maximum Time: 3 Hrs.**

**Practical Sessions to be conducted: 40-50 Hrs**

This laboratory course will comprise as exercises to supplement what is learnt under paper BCA-215: Fundamentals of Database Management System. Students are required to practices following:

1. Creating tables in MS ACCESS using different ways.
2. Import and export data from MS ACCESS.
3. Creating queries in MS ACCESS for selection, projection, Cartesian product, union,
4. intersection and difference.
5. Creating queries in MS ACCESS for different types of joins.
6. Creating forms in MS ACCESS
7. Creating application using switchboard.

The break up of marks for the practical will be as under

i.	Lab Record (Internal Assessment)	15 Marks
ii.	Viva Voce (External Evaluation)	15 Marks
iii.	Program Development and Execution(External Evaluation)	20 Marks

## BCA-221: English Communication Skills – II

**Max Marks: 75**

**Min Pass Marks: 35%**

**Maximum Time: 3 Hrs.**

**Lectures to be delivered: 45-55 Hrs**

**English Communication Skills** has been designed to develop the student's communicative competence in English. Therefore, content selection is determined by the student's present and future academic, social and professional needs.

### **Texts Prescribed for Grammar and Vocabulary:**

1. Old man and the Sea by Earnest Hemmingway
2. Living English Structure : W. Standard Allen (Orient Longman)
3. The written word by Vandana R. Singh
4. The Students' Companion by Wilfred D. Best

### **SECTION A**

- Q.1** (a) One essay type question with an internal choice for about 250-300 words from Old Man and The Sea. 10 marks
- (b) 5 short answer type questions to be attempted out of the given eight from Old man & the Sea (40-50 words) 5×2 = 10 marks

### **SECTION B – COMPOSITION**

- Q.2** (a) Small words for big ones from the book Students' Companion (Attempt 5 words out of given 8) 5 marks
- (b) Two short formal classified advertisements and display advertisement from the given three. 5+5= 10 marks
- (c) One Report writing from the given 2 topics 10 marks
- (d) Two short formal notice writing such as public, legal and memorandum from the given three 5+5 = 10 marks

### **SECTION C - GRAMMAR**

- Q.3** (a) Transforming one type of sentences to another type of sentences including narration, voice & Tenses. Students are required to attempt 15 sentences out of given 18. 5+5+5 = 15 marks
- (b) Transforming of Degree  
Attempt 5 out of given eight sentences 5 marks

## BCA-222: Computer Networks

Max Marks: 75

Min Pass Marks: 35%

Maximum Time: 3 Hrs.

Lectures to be delivered: 45-55 Hrs

### (A) INSTRUCTION FOR THE PAPER SETTER

The question paper will consist of *three sections A, B and C*. Section A and B will have four questions from the respective section of the syllabus carrying 15 marks for each question. Section C will consist of 5-10 short answer type questions carrying a total of 15 marks, which will cover the entire syllabus uniformly. Candidates are required to *attempt five questions in all by selecting at least two questions each from the section A and B. Section C is compulsory.*

### (B) INSTRUCTIONS FOR THE CANDIDATES

Candidates are required to attempt five questions in all by selecting at least two questions each from the section A and B. Section C is compulsory.

### SECTION-A

Introduction to Computer networks, Applications, Network hardware and Software (protocol hierarchies, design issues for layers, interfaces and services: connection oriented and connection less), Network structure and architecture- point to point, multicast, broadcast, Classification of networks-LAN, MAN and WAN. Reference models, the OSI reference model, TCP / IP reference model. Comparison between OSI and TCP / IP models. Data Link Layer: Design issues, Services to network layer, Framing, Error control, Flow control, Elementary data link protocols- unrestricted simplex protocol, simplex stop and wait protocol, simplex protocol for a noisy channel.

### SECTION-B

Network layer: Design issues, Services to the transport layer, Routing algorithms- Static/ non-adaptive and dynamic/adaptive algorithms. Congestion control algorithms – the leaky bucket algorithm, the token bucket algorithm.

Transport layer, design issues, connection management-addressing, establishing and releasing connection, transport layer protocols- TCP, UDP.

Application layer: The DNS Name Space, Electronic Mail, The World Wide Web, Network security: Introduction to cryptography, substitution ciphers, transposition ciphers, one-time pads, two fundamental cryptographic principles, public-key algorithms (RSA, other Public-key algorithms), digital signatures (symmetric-key signatures, public key-signatures, message digests

### Text Books:

1. B Forousan, Introduction to data communication and networking
2. A S Tanenbaum, Computer Networks.

## BCA-223: Management Information System

Max Marks: 75

Min Pass Marks: 35%

Maximum Time: 3 Hrs.

Lectures to be delivered: 45-55 Hrs

### (A) INSTRUCTION FOR THE PAPER SETTER

The question paper will consist of *three sections A, B and C*. Section A and B will have four questions from the respective section of the syllabus carrying 15 marks for each question. Section C will consist of 5-10 short answer type questions carrying a total of 15 marks, which will cover the entire syllabus uniformly. . Candidates are required to *attempt five questions in all by selecting at least two questions each from the section A and B. Section C is compulsory.*

### (B) INSTRUCTIONS FOR THE CANDIDATES

Candidates are required to attempt five questions in all by selecting at least two questions each from the section A and B. Section C is compulsory.

### SECTION-A

**Management Information system:** Meaning and definition, Role of information system, Nature and scope of MIS.

**Information and system concepts:** Definition and types of information, Information quality, dimensions of information, value of information, general model of human as an information processor. System related concepts, elements of a system, and types of system.

**Role and importance of Management:** Introduction, levels and functions of management. Structure and classification of MIS, Components of MIS, Framework for understanding MIS: Robert Anthony's hierarchy of management activity, Information requirements and levels of management.

### SECTION-B

Decision making concept, types of decisions, methods of choosing among alternatives, Role of MIS in decision making.

Simon's model of decision making, Structured and unstructured decisions.

**Development of MIS:** Stages in the development of MIS, System development approaches: Waterfall model, Prototyping, Iterative enhancement model, Spiral model.

Applications of information systems in Functional areas: Marketing MIS, Financial MIS, Production MIS, Personnel MIS.

**Decision Support Systems:** Definition and characteristics, MIS versus DSS, Tools and Models for decision support.

## BCA-224: Computer Oriented Numerical and Statistical Methods

Max Marks: 75

Maximum Time: 3 Hrs.

Min Pass Marks: 35%

Lectures to be delivered: 45-55 Hrs

### (A) INSTRUCTION FOR THE PAPER SETTER

The question paper will consist of *three sections A, B and C*. Section A and B will have four questions from the respective section of the syllabus carrying 15 marks for each question. Section C will consist of 5-10 short answer type questions carrying a total of 15 marks, which will cover the entire syllabus uniformly. Candidates are required to *attempt five questions in all by selecting at least two questions each from the section A and B. Section C is compulsory.*

### (B) INSTRUCTIONS FOR THE CANDIDATES

1. Candidates are required to attempt five questions in all by selecting at least two questions each from the section A and B. Section C is compulsory.
2. Use of Non-Programmable Scientific calculator is allowed.

### SECTION-A

**Basics:** Floating point representation of numbers, arithmetic operation with normalised floating point numbers and its consequences, errors in numbers, binary representation of numbers.

**Solution of transcendental equations:** Bi-section method, Regula-falsi method, Newton/Raphson method, Secant method

**Solution of simultaneous algebraic equations:** Gauss elimination method, pivoting, ill-conditioned equations, Gauss-Seidel iterative method, comparison of direct and iterative method.

### SECTION-B

**Interpolation:** Lagrange's interpolation, Newton Interpolation

**Curve Fitting:** Linear regression, Polynomial regression, Exponential Regression

**Introduction to Statistics:** Meaning, scope, collection, classification of data. Application based on and processing logic of measures of central tendency, dispersion.

**Bivariate Data:** Correlation, Meaning, and Type of correlation, correlation and causation, methods of studying correlation, algorithm to compute Karl Pearson's Correlation and rank correlation. Applications based on correlation.

**Linear Regression:** Processing logic of and numericals based on fitting of regression lines (Using least square method).( Properties without Proofs)

## BCA-225: Relational Database Management System with Oracle

Max Marks: 75

Min Pass Marks: 35%

Maximum Time: 3 Hrs.

Lectures to be delivered: 45-55 Hrs

### (A) INSTRUCTION FOR THE PAPER SETTER

The question paper will consist of *three sections A, B and C*. Section A and B will have four questions from the respective section of the syllabus carrying 15 marks for each question. Section C will consist of 5-10 short answer type questions carrying a total of 15 marks, which will cover the entire syllabus uniformly. . Candidates are required to *attempt five questions in all by selecting at least two questions each from the section A and B. Section C is compulsory.*

### (B) INSTRUCTIONS FOR THE CANDIDATES

Candidates are required to attempt five questions in all by selecting at least two questions each from the section A and B. Section C is compulsory.

#### SECTION-A

Introduction to RDBMS Product and their Features, Difference between DBMS and RDBMS, Relationship among application programs, RDBMS, Basic File Operations: Opening Files, Closing Files, Reading and Writing, Seeking  
File Organization: Field and Record structure in file, Record Types, Types of file organization, Sequential, Indexed, and Hashed.

**Transaction Management:** Transaction Concept, Properties, Transaction States, Concurrent Execution, Serializability, Conflict Serializability, View Serializability, Recoverability, Recoverable Schedule, Cascadless Schedule

**Concurrency Control:** Lock Based Protocol, Locks, Granting of Locks, Two Phase Locking Protocol, Timestamp Based Protocol, Timestamp, Timestamp ordering protocol, Thomas's Write Rule, Validation Based Protocol, Deadlock Handling, Deadlock Prevention, Deadlock Detection, Deadlock Recovery

#### SECTION-B

**Recovery System:** Failure Classification, Transaction Failure, System Crash, Disk Failure, Storage Structures, Storage Types, Data Access, Recovery & Atomicity, Log based Recovery, Deferred Database Modification, Immediate Database Modification, Checkpoints, Recovery with Concurrent Transaction, Transaction Rollback, Restart Recovery, Remote Backup System

**Relational Query Language:** DDL, DML, DCL.

**Introduction to Oracle:** Oracle as client/server architecture, getting started, creating, modifying, dropping databases. Inserting, updating, deleting data from databases, SELECT statement, Data constraints ( Null values, Default values, primary, unique and foreign key concepts)

Computing expressions, renaming columns, logical operators, range searching, pattern matching, Oracle functions, grouping data from tables in SQL, manipulating dates.

**Working with SQL:** triggers, use of data base triggers, database triggers Vs. SQL\*forms, types of triggers, how to apply database triggers, BEFORE vs. AFTER triggers, combinations, syntax for creating and dropping triggers.

**BCA-226: Software Lab – VI**  
**(Based on paper BCA-224: Computer Oriented Numerical and Statistical Methods)**

**Max Marks: 50**

**Maximum Time: 3 Hrs.**

**Min Pass Marks: 35%**

**Practical Sessions to be conducted: 40-50 Hrs**

This laboratory course will comprise as exercises to supplement what is learnt under paper BCA-224: Computer Oriented Numerical and Statistical Methods. Students are required to develop the following programs in C/C++ language with internal documentation:

1. Write a program to compute the mean and weighted mean of raw data.
2. Write a program to compute the mean and weighted mean of discrete series (x, f).
3. Write a program to compute the mean and weighted mean of continuous series.
4. Write a program to compute the mode and median of raw data.
5. Write a program to compute the median of discrete series (x, f).
6. Write a program to compute the median of continuous series.
7. Write a program to compute the mode of discrete series (x, f).
8. Write a program to compute the mode of continuous series.
9. Write a program to compute the standard deviation and variance of discrete series.
10. Write a program to compute the standard deviation and variance of continuous series.
11. Write a program to compute the correlation using Karl Pearson's Correlation
12. Write a program to compute the regression coefficients.
13. Write a program for Bisection method.
14. Write a program for Regula-falsi method.
15. Write a program for Secant method.
16. Write a program for Newton-Raphson method.
17. Write a program for Gauss-Elimination method.
18. Write a program for Lahrangle"s Interpolation method.
19. Write a program for Newton-Interpolation method.

The break up of marks for the practical will be as under

i.	Lab Record (Internal Assessment)	15 Marks
ii.	Viva Voce (External Evaluation)	15 Marks
iii.	Program Development and Execution(External Evaluation)	20 Marks

## **BCA-227: Software Lab – VII**

**(Oracle lab based on paper BCA-225: Relational Database Management System with Oracle)**

**Max Marks: 50**

**Maximum Time: 3 Hrs.**

**Min Pass Marks: 35%**

**Practical Sessions to be conducted: 40-50 Hrs**

This laboratory course will comprise as exercises to supplement what is learnt under paper BCA-225: Relational Database Management System with Oracle. Students are required to practices writing SQL statements for

1. Creating the Table
2. Querying the record using order by clause
3. Querying the record using group by clause
4. Querying the record using multiple conditions
5. Create Synonyms
6. Create Sequences
7. Create Views
8. Create Indexes
9. Create triggers
10. Create cursors for procedures

The break up of marks for the practical will be as under

- |      |  |          |
|------|--|----------|
| i.   | Lab Record (Internal Assessment)                       | 15 Marks |
| ii.  | Viva Voce (External Evaluation)                        | 15 Marks |
| iii. | Program Development and Execution(External Evaluation) | 20 Marks |

## BCA : 228 Environmental and Road Safety Awareness

Time Allowed : 3 hours  
Total lectures : 50

Total Marks : 100  
Pass marks : 35

**Theory Paper : 70 marks+Internal Assessment 30 marks**

### Instructions

- The paper has been introduced from the session 2013-14.
- The paper will be taught in the Second year/fourth Semester of all the U.G. Courses (B.A., B.Com., B.Sc., Law, Engineering, Commerce, Agriculture etc.) except L.L.B. Three year course and will be a qualifying paper only. The marks of this paper will not be counted towards final score of the under graduate degree.
- This will cover only preliminary and basics of the subject and the paper will be set accordingly.
- The question paper will consist of three sections A, B and C. Section A and B will have four questions in each section from the respective sections of the syllabus and will carry 10 marks each. Section C will syllabus uniformly and will carry 30 marks in all.
- Candidates are required to attempt two questions from each section A and B and the entire Section C.

### Section – A

**Unit 1 :** The multidisciplinary nature of environmental studies. Definition, scope and importance

- Concept of Biosphere – Lithosphere, Hydrosphere, Atmosphere.
- Need for public awareness (6 lectures)

**Unit – 2** Natural Resources – Renewable and non-renewable resources.

- Natural resources and associated problems.
  - Forest resources : use and over exploitation, deforestation and its impact.
  - Water resources ; use and overutilization of surface and ground water and its impact.
  - Mineral resources : use and effects on environment on over exploitation.
  - Food resources : Effects modern agriculture, fertilizer-pesticide problem, water logging and salinity.
  - Energy resources : Growing energy needs, renewable and non-renewable energy sources, use of alternate energy resources.
  - Role of an individual in conservation of natural resources for sustainable development. (7 lectures)

**Unit 3 :** Ecosystems

- Ecosystem and its components : Definition, structure and function; producer, consumer and decomposer.
- Types of Ecosystem (Introduction only)
- Food Chains, food web and ecological pyramids (6 lectures)

**Unit – 4 :** Biodiversity and conservation

- Introduction – Definition : genetic, species and ecosystem diversity, value of biodiversity.
- Hot spots of biodiversity
- Threats to biodiversity : habitat loss, poaching of wildlife, man-wildlife conflicts.
- Endangered and endemic species of India.
- Conservation of Biodiversity. (6 lectures)

## Section – II

### Units 5 : Environmental Pollution

- Definition, causes, effects and control measures of
  - a) Air pollution
  - b) Water pollution
  - c) Soil pollution
  - d) Marine pollution
  - e) Noise pollution
  - f) Thermal pollution
  - g) Nuclear hazard
- Role of an individual in prevention of pollution.
- Solid waste management : vermicomposting.
- Disaster management : Floods, earthquake, cyclone and landslides (7 lectures)

### Unit 6 : Social Issues and the Environment

- Urban problems related to energy.
- Water conservation rain water harvesting, water shed management.
- Resettlement and rehabilitation of people : its problems and concerns.
- Climate changes, global warming, acid rain, ozone layer depletion.
- Consumerism and waste products.
- Population explosion – Family welfare programme (6 lectures)

### Unit 7 : Introduction to Environmental Protection Laws in India

- Environmental Protection Act.
- Air (Prevention and control of pollution) Act.
- Water (Prevention and Control of pollution) Act.
- Wild life Protection Act.
- Forest Conservation Act.
- Issues involved in the enforcement of environmental legislation. (6 lectures)

### Unit 8 : Road safety Awareness

- Concept and significance of Road safety.
- Traffic signs.
- Traffic rules.
- Traffic Offences and penalties.
- How to obtain license.
- Role of first aid in Road Safety. (6 lectures)
